## **A Brief History of Meharry Medical College**

Meharry Medical College was founded in 1876, as the Medical Department of Central Tennessee College, to educate freed slaves as health care professionals. Fifty years prior to its formal founding, a family of former slaves befriended sixteen-year-old Ohio farmer Samuel Meharry while traveling through rural Kentucky. Meharry was touched by the kindness and generosity of the desperately poor Black family and vowed to repay his debt of gratitude. In 1876, Meharry and his brothers made a \$30,000 gift toward the establishment of the medical department of Central Tennessee College. The Freedman's Aid Society of the Methodist Episcopal Church and the John F. Slater Fund also were contributors.

In 1915, Meharry separated from Walden University (the successor institution to Central Tennessee College), having received a new charter from the State of Tennessee. It did, however, retain its affiliation with the Methodist Church. In January 1916, bylaws were adopted providing for the governance of the College by an 18-member board of trustees. On that same date, the board appointed Dr. George W. Hubbard as the institution's first president.

In the years following, as Meharry continued to grow, it became necessary for the College to move from its four-story building in south Nashville to its present location on Dr. D. B. Todd Boulevard in north Nashville in 1931. The cost of the facility was \$2 million and was made possible by major gifts from the Edward Harkness Foundation, the Rockefeller Foundation, the Julius Rosenwald Fund and George Eastman of the Kodak Foundation.

From these humble beginnings, the College has become the largest private, historically Black institution in the United States exclusively dedicated to the education of health care professionals and biomedical scientists. Today it includes the Schools of Medicine, Dentistry, Graduate Studies and Research, and Allied Health. It has remained a private institution and their respective accrediting bodies accredit all of the College's schools and academic programs. The College has also continued its relationship with the United Methodist Church, receiving approval by the Church's University Senate and funding from its Black College Fund.

The dental department within the Meharry Medical Department of Central Tennessee College was conceived in 1884. Two years later, the dental course was organized within the department as part of the medical curriculum. This expanded its mission as the first institution in the Deep South to train African American dentists and it was also one of a few in that era to promote the recruitment of women into the profession.

## Meharry Mission Statement

**M**eharry Medical College is an academic health center that exists to improve the health and health care of minority and underserved communities by offering excellent education and training programs in the health sciences. True to its heritage, Meharry places special emphasis on providing opportunities for people of color, individuals from disadvantaged backgrounds, and others regardless of race or ethnicity; delivering high quality health services; and conducting research that fosters the elimination of health disparities.

## Meharry Vision

**T**o enhance our national reputation and expand our global reach as a quality-driven academic health center noted for its:

- Leadership in diversifying the nation's health professions work force;
- Highly effective and innovative educational and training programs;
- Enlightened health policy development and culturally-sensitive, evidence-based health services; and
- Preeminence in focused research that leads to the elimination of health disparities.

## Meharry's Core Values

- **Excellence:** consistently achieving outstanding levels of performance while upholding the highest standards of ethical behavior, intellectual honesty, and professional conduct.
- **Service:** maintaining a nurturing and service-oriented environment that exceeds expectations and treats all people with compassion, dignity, and respect.
- **Accountability:** accepting individual and collective responsibility for preserving and effectively managing the resources of the College.
- **Teamwork:** encouraging, supporting and valuing the collaborative efforts of faculty, staff, and students to advance the quality of education, research, and patient care.
- **Innovation:** promoting creativity and the development of ideas that stimulate improvements in our intellectual and operational endeavors.
- **Diversity:** fostering ethnic, intellectual, social, and cultural diversity.
- **Community-focused:** demonstrating our concern for the health care needs of underserved communities and advocating for local, state, and national health and public policies directed at improving the status of health of all individuals.
