

About the ISA

Timeline

October – November 2020	Independent Student Analysis Survey Live Survey Launch Date: - October 6, 2020 Completion Date: - November 7, 2020
November 2020	Analysis of Data
March 2021	Provide Final ISA Report to FAL

ISA Committee Members

Mr. Mohamed Hammoud, Chair – c/o 2022

Ms. Rebekah Yearwood, Co-Chair – c/o 2023

Mr. Gerald Jones – c/o 2021
Ms. Alexis Hood - c/o 2021
Ms. Brittany Hopkins – c/o 2022
Ms. Ayotola Fatola – c/o 2021
Ms. Laurie Temiz – c/o 2022
Mr. Jordan Patrick – c/o 2022
Mr. Siddharth Patel – c/o 2022
Mr. Hasan Entwistle – c/o 2022
Mr. Oladipupo Anibire – c/o 2023
Mr. Terry Henry – c/o 2023
Ms. Brittny Dike – c/o 2023
Ms. Adetayo Abdulrazak – c/o 2023
Ms. Geryn Hasty – c/o 2023
Ms. Dorian Hill – c/o 2023
Mr. Kardeem Joseph – c/o 2023
Ms. Alexandria Clemmons – c/o 2024
Ms. Morgan Williams – c/o 2024
Ms. Simone Moore – c/o 2024
Mr. Alexander Fuentes – c/o 2024
Ms. Aisha Morafa – c/o 2024

Student Incentives were listed on the flyer. They do not need to be repeated.

Frequently Asked Questions

What is the aim of the ISA?

The ISA is one of three major sources of student-based information that the survey team will use when it evaluates the medical education program. The other two sources of information are the AAMC GQ, and the students who meet with survey team members during the survey visit. These students will come from all years of the curriculum but may not necessarily constitute a representative sample of students' opinions. To complement these other information sources, the ISA should be based on a comprehensive survey of students in all four years and cover a wide range of subjects important to students.

An accreditation survey is not an opportunity for individual students, faculty members, deans, or anyone else to involve the LCME in discussions about personal or academic grievances with the medical school. As an accrediting agency, the LCME and its survey teams concentrate only on making determinations about whether the medical education program is performing in a satisfactory way related to the accreditation standards and elements.

How many survey completions are we aiming for?

An effective ISA is based on data from the entire student body. A high response rate (at least 70-80% in total and by year) to the questionnaire survey is critical for the credibility of the data.

How long is the survey?

The survey should take between 30 – 40 minutes to complete.

Are my responses anonymous?

Yes. All survey responses are de-identified upon submission.

What if I have not had any sort of contact with any of the specific individuals mentioned in several of the survey questions? How am I supposed to rank them?

Please select the option - N/A = No opportunity to assess/Have not experienced this yet

What sort of changes will be made with the ISA findings?

Institutional responses to the ISA findings will be determined and communicated with students.

Who can I send a message to if I have questions regarding the survey or how my answers may be used?

The ISA committee chairs. Mr. Mohamed Hammoud, mhammoud19@email.mmc.edu or Ms. Rebekah Yearwood, yearwood20@email.mmc.edu

Institutional Response to ISA Findings

The ISA is currently underway, and the responses are not yet available at this time. A notification will be sent to the student body when this information becomes available.
